Highway 19 North
Highway 19 South
Highway 19 at Bridges
Highway 19 at Bridges
Highway 27
Highway 49
Highway 280
Highway 377
The taller scale serves as a landmark for the main thoroughfare coming off of Hwy 19 headed into the historical downtown district.
The scale provides a space for modern conveniences, such as a digital sign. A digital sign will help inform the community of upcoming events.
Leave Gap
This will provide an entrance for maintenance.

Hemerocallis spp.
Daylilies

Abelia x grandifolia
Glossy Abelia

Osmanthus fragrans
Sweet Olive
The smaller scale sign provides a quaint, inviting feeling while keeping in line with the same theme as the larger sign through material choice.
This columnar sign should be placed on both sides of the road to evoke the feeling of an entry way into the city.
The backside of these signs can also say “Thanks for visiting” to provide an exit for the city.

Hwy 19 - Downtown Entrance

Highway 49

Hwy 377
Wooden Sign
The intricate shape provides a quaint inviting feeling for the city of Americus, Georgia.

Brick Facade
The colors of the brick add a warm, rich feeling to the design.

Stone Facade
The stone gives the appearance of a strong, sturdy base for the signs.
