QUALITY HEALTH CARE CLOSE TO HOME

Brunswick Campus  Camden Campus

www.sghs.org
Southeast Georgia Health System is a non-profit institution accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). It has served the health care needs of residents and visitors of the beautiful Golden Isles and surrounding areas since 1888.

Headquartered in the historic port city of Brunswick, the Health System employs more than 2,000 team members, has more than 380 physicians on staff, and has approximately 220 volunteers. The System has a service area of eight counties in southeast Georgia and one in northern Florida: Brantley, Camden, Charlton, Glynn, Long, McIntosh, Pierce and Wayne in Georgia and Nassau in Florida.

The Brunswick Campus also has an innovative, internationally-recognized alliance with the International Seafarer’s Center that provides first-class medical attention to approximately 15,000 international merchant seafarers who come into the Port of Brunswick each year.

Southeast Georgia Health System is distinguished by our dedication to providing quality and affordable health care to the entire southeast Georgia community.

In 2009, the expansion of the Camden Campus was unveiled. This project affected virtually every department in the hospital by updating and modernizing the facility to bring the Health System’s Camden patients a new level of comfort and medical care. In fact, the Camden Campus was named by the Georgia Alliance of Community Hospitals as the 2009 Small Hospital of the Year.

First-Rate Facilities with a Hometown Feel

- Bariatric Care Center of Excellence
- Three family medicine centers
- Community care center specializing in pediatrics and orthopedics
- Multiple physician practices
- Two sleep management centers
- Three immediate care centers
- And much more
Coastal Georgia—Excellence in Every Way

Southeast Georgia Health System is nestled along southeast Georgia’s majestic coast. The two main campuses of the Health System are located in Glynn and Camden Counties. Both campuses are easily accessible from 1-95, as well as several major state highways. The Brunswick Golden Isles Airport, Jacksonville (FL) International and Savannah (GA) International Airports, and Amtrak railway services are less than an hour away. In addition, Glynn County is home to the Port of Brunswick, one of the largest international shipping and receiving ports along the eastern coast.

A Great Place to Call Home

Brunswick was established in 1771. Today, the bustling waterfront is home to a marina and private and commercial vessels from all over the world. The Downtown area features Victorian commercial buildings and offers visitors and residents limitless shopping, dining and cultural activities. Brunswick includes the second largest concentration of documented historical structures in Georgia.

St. Simons Island is the largest and most populous of the Golden Isles. The island is home to 300-year-old oak trees draped with Spanish moss, unspoiled beaches, and many different species of wildlife thriving in the marshes. The Village and Pier area are popular places to shop, eat and mingle. The lighthouse, rebuilt in 1872, is one of five surviving lighthouses in Georgia and from the top, offers a vast panorama of the Golden Isles.

Jekyll Island is known as Georgia’s Jewel. Beginning in 1886 and continuing for over four gilded decades, the Island was the exclusive winter retreat for some of America’s most elite families, including the Rockefellers and the Goodyears. Today, Jekyll Island is a designated wildlife preserve, with 10 miles of unspoiled beaches that are perfect for sunbathing or swimming, for leisurely walks or invigorating jogs.

Sea Island is an exclusive, private resort community that is frequented by many of the world’s rich and famous. Sea Island boasts scores of vibrant, year-round activities for the entire family. Regarded as one of the finest golf destinations in the world, this luxury resort island offers endless opportunities for fun, where the salt marshes, dunes, antebellum oaks and rivers lie in harmony with five glorious miles of private beach.

St. Marys is a beautiful marina community about 30 miles north of Jacksonville, Florida. St. Marys is one of a small handful of communities throughout the US where you can enjoy a wonderful lifestyle without owning a car—golf carts are the chosen mode of transportation around town. Filled with history and community events, such as the local Community Garden, St. Marys offers a laid-back, family-friendly lifestyle.
We invite you to become part of our team.

Come Join Our Community

Since 1888, Southeast Georgia Health System has proudly served the medical needs of the local coastal Georgia community. Through its comprehensive Health Promotion and Wellness program, the Health System provides numerous health screenings in the community as well as occupational medicine services and free monthly educational seminars for the public.

The Health System supports health screenings and preventative education programs for the community with its Wellness on Wheels (WOW) vehicle. Staff members take the WOW vehicle to health departments, YWCAs, industries and businesses, malls, health fairs, and community events throughout southeast Georgia — wherever quality health care is needed.

As a way to give back to their community, the Health System serves as charter sponsor for many local festivals and events, such as the Rockin’ Stewbilee, the Southeast Georgia Heath System Bridge Run, and the motorcycle PORKer Run. All of these events benefit local charities such as the Boys & Girls Club, the American Diabetes Association, and the SGHS Foundation.

Members of the SGHS Hospital Auxiliary pose with one of the winners of the Rockin’ Stewbilee, which is an annual celebration of the famed local delicacy—Brunswick Stew.

The Wellness on Wheels (WOW) vehicle supplies much-needed health care—such as mammograms, diabetes screenings, vaccinations, tuberculosis skin tests, bone density screens, pulmonary function tests, blood pressure checks, lab draws, cholesterol screens, education and hearing tests—to support the education and well-being of the local community.

- Deep Sea Fishing
- Seining
- Skiing
- Snorkeling
- Scuba Diving
- Beach Volleyball
- Soccer
- Kite Flying
- Running
- Beach Walks
- Sun Bathing
- Canoeing
- Kayaking
- Parasailing
- Bird Watching
- Historical Sightseeing

Come Join Our Lifestyle

Coastal Georgia offers a quality of life that is unsurpassed. True quality of life is defined by the homes and natural environment of this coastal community. Coastal Georgia is unique for many reasons. It offers not only a dreamlike getaway, but also a sense of permanence and community to many. With natural amenities, beautiful houses, safe neighborhoods, and no limit of activities, coastal Georgia is the perfect place to call home.

Residents enjoy art exhibits and festivals, trolley rides, antique stores, antique auctions, concerts at the lighthouse, shopping and an impressive range of dining options. This is a place where residents look forward to oyster roasts, celebrating birthdays at Neptune Park and biking to the beach—all while exchanging greetings with friends and neighbors. In addition, social organizations for all interests are available. We invite you to come join our team, our community, and our lifestyle.
MISSION
Southeast Georgia Health System will provide safe, quality, accessible, and cost-effective care to meet the health needs of the people and communities it serves.
