**Elbert County Quilt Trail**

Worked with the Stephen Heard Chapter of DAR in Elbert County to write and submit a Hart EMC grant for $3,590 to support the development of the Elbert County Quilt Trail. This collaboration will support the Hart County Quilt Trail by developing a regional quilt trail (Elbert, Franklin, and Hart Counties) to draw tourists to this region of Northeast Georgia. Once the Elbert and Hart County Quilt Trails have installed more quilt block signs, the larger goal is to develop regional marketing collateral (smartphone app, web site, paper brochure) to promote the area.

**Delegation Visit**

Hart County Economic Development Director Dwayne Dye hosted a visiting delegation from the Governor's Association of Korea and the Carl Vinson Institute of Government. As part of the group's visit, Dye and representatives of Hart County Board of Commissioners, Hart County IBA, and Hart County Archway Partnership shared lunch and conversation with the group at Cateechee Golf Club.

**Hart County Recreation Department Master Plan**

With the Hart County Recreation Director, Hart County Archway presented a draft of the Hart County Recreation Department master plan to the Recreation Advisory Board. Hart County Archway aided the planning process by helping the Recreation Advisory Board gather public input through community input meetings, focus groups, and surveys, and working with the Recreation Director to document the plan. With feedback from the RAB, the plan will be presented to the Board of Commissioners soon.

**Teasley-Holland House Renovations**

Hart County Archway assisted the Hart County Historical Society & Museum and the Hart County Chamber to write and submit a Hart EMC grant for the next phase of renovations to the Teasley-Holland House. The grant is for $10,000, which includes $9,000 to re-roof the historical home as well as funds for new, more visible signage, and landscaping materials. The landscaping will be installed in consultation with Hart Co. Cooperative Extension Coordinator Charles Rice, per a landscape design created by Archway landscape architecture intern Claire Dellinger in Summer 2011.
