Habersham Archway partnered with the Georgia Department of Labor and The Torch Worship Center to create a job bank listing to be distributed at The Torch’s monthly food bank event. The first job bank was held on Saturday, April 5. More than 400 people attended that day and were given job listings. As a result, approximately 35 people signed up with the Georgia Department of Labor for employment. The job bank idea stemmed from Habersham Archway’s Workforce Development work group, and was in response to findings revealed in a survey prepared by Archway. Surveyed area employers responded with job openings. Area companies offering job opportunities included Magnolia Windows and Doors, NAS Manufacturing in Cornelia, American Bag and Linen Company and Hayes Chevrolet. Following the success of the first event, job listings are scheduled to be distributed at food bank events each month.
