City of Americus Dog Park
Grad student Abi Phillips presented a Dog Park concept to Archway Exec that repurposed a piece of City property unsuited for traditional development to accommodate the requests of residents from over 50 downtown residential properties. The plan includes large and small dog play areas, an urban forest and walking trail, a dog run and ideas for repurposing tires currently being disposed of on the property. In addition, elements from the building that once stood on the site were incorporated into the entry design.
