PSO Scholars & Leadership UGA Visit Metter
For two consecutive Fridays in October, the historic Metter train depot was awash in red and black. Both the 2014 PSO Student Scholars and the 2014 Leadership UGA group visited Metter to learn more about the Archway Partnership. Both groups were greeted by Dustin Durden and Steven Snell, Co-Chairs of the Candler County Archway Partnership. Durden and Snell described how Metter came to be an Archway community and how the process has made an impact locally. Archway Professional Betsy McGriff recapped significant accomplishments to date, using examples that have reached the implementation phase.
