The Archway Partnership, a Public Service and Outreach unit at UGA, is a community engagement platform created to enhance the land grant mission of teaching, research and service while addressing self-identified community needs in geographically dispersed locations across the state. Collaborative relationships have led to the use of resources from all 17 schools and colleges at UGA as well as other Public Service and Outreach units. Archway has connected communities with 14 of 31 University System of Georgia institutions, 11 of 24 technical colleges, and four private universities across Georgia.
