**Pulaski County Archway Partnership presentation at ESC Conference**

During the first week of October, the Pulaski County Archway Partnership was able to present information about the community's new Youth Leadership Academy to engaged scholars from around the globe. Archway Professionals from Grady, Washington and Pulaski counties made their way to Edmonton, Alberta, Canada to share insights on engaging youth to facilitate community change. This year’s Engagement Scholarship Consortium was the 15th annual conference, and focused on the theme of “Engaging for Change: Changing for Engagement”.
