Metter-Candler County website launches

After nearly two years of community-wide collaboration and visioning from the Candler County Archway Executive Committee, the Metter-Candler County community has launched its new website. The website, which is a collaboration between the City of Metter, Candler County, the Industrial Development Authority and the Chamber of Commerce, was a key project and goal for the Candler Archway Executive Committee. The committee, who had worked with Dr. Elizabeth Davis’ ‘Writing for the Web’ class, took the report and recommendations created by the UGA students and worked with a local web developer to create the actual site. The site is live at: www.everythingsbetterinmetter.com.
